

## Frontend Developer (React) - Hybrid - Boston, MA

### Company Overview:

We're a Boston-based startup developing innovative web applications. We're seeking a talented Frontend Developer with expertise in React.

### Job Overview:

As a Frontend Developer, you will create and maintain our web applications, with a focus on user interfaces and responsive designs.

### Key Responsibilities:

- Collaborate with the design team.
- Write clean, efficient code.
- Optimize web applications for maximum speed and scalability.

### Skills:

- Proficiency in React and JavaScript.
- Strong CSS and responsive design skills.
- Familiarity with RESTful APIs.

### Qualifications:

- Bachelor's degree in Computer Science or equivalent.
- Proven experience with React development.
