

Software Developer (Junior Level) - Full-time - New York, NY

Company Overview:

We are a fast-growing tech company in the heart of New York City, working on cutting-edge projects. We're looking for an enthusiastic junior software developer to join our team.

Job Overview:

As a junior software developer, you will assist in designing, coding, and modifying software applications. You'll work closely with experienced developers and have opportunities for professional growth.

Key Responsibilities:

- Collaborate with the development team.
- Write clean, maintainable code.
- Assist with testing and debugging.

Skills:

- Proficiency in one or more programming languages.
- Basic understanding of software development principles.
- Strong problem-solving skills.

Qualifications:

- Bachelor's degree in Computer Science or a related field.
- Entry-level candidates welcome.
