

Urhiofe Favour

PRODUCT DESIGNER

WORK EXPERIENCE

UI/UX Intern / IQube Labs

MAY 2021 — NOVEMBER 2021 (LAGOS, NIGERIA)

I conducted user research, created responsive websites, created wireframes for different products, created hi-fidelity designs, and created digital prototypes. i carried out design review sessions and made various presentations for different products.

Ui/Ux Intern / Dukewebtech

July 2020 — January 2021 (Warri, Delta State)

I Conducted user research, created responsive websites, created wireframes for different products, created hi-fidelity designs, and created digital prototypes. Visual designing for social media pages.

PROJECTS

Product Designer / Nmeso's Place

I created a designated app for a restaurant, to enable users to order meals faster with swift delivery. I carried out user research, created wireframes, hi-fi designs, created a prototype and carried out usability testing for the product, and made several design iterations to the product.

Product Designer / Igbudu

I created an ecommerce administration web application, that enables vendors track sales, delivery status, failed orders and have inventory of goods they provide. I carried out user research, created wireframes, hi-fi designs, and created a prototype.

Other Project

- A Landury App(Anywash)
- Icontrol App, a birth control app which allows women book an appointment with the doctors, know the most suitable birth control method for them, and track their cycle.
