Professional Summary

I'm a Flutter developer with a formal education as an MBA in finance and 3 years of Flutter experience. I've led a small team through the full software development life cycle (SDLC) for iOS and Android: including planning, developing, releasing, and maintaining a complex mobile app in the App Store and Play Store.

Experience

Lead Flutter Developer (Sep 2022 - present)

Gervais Mechanical LLC / Infiniserv.pro

- Responsible for the full SDLC of Infiniserv.pro (mobile)
- Successfully published Infiniserv.pro to Apple's TestFlight and Google's internal testing
- Directed HVAC technicians and managers in getting Infiniserv.pro installed on their devices

Founder | Lead Flutter Developer (March 2020 - present)

UP 365 Limited Liability Company

- Conceptualized, planned, designed and created UP 365, a stock market mobile app for retail investors
- Created and maintained Apple and Google developer profiles
- Successfully published UP 365 in the App Store and Play Store
- Responsible for the design, build, deployment, debug & maintenance of UP 365 for Google Play and the App Store
- Tested UP 365 on multiple devices to ensure compatibility standards
- Hired and managed 2 employees and directed the development of UP 365's backend
- Oversaw the building of UP 365's database using a Google Cloud VM instance and SQL
- Directed the migration of UP 365's database to Firebase
- Responsible for setting up and maintaining version control, using Git and Github
- Trained employees on Git version control
- Responsible for setting KPIs and implementing Firebase Analytics; this reflected UP 365's daily average engagement time of over 1 hour 30 minutes and allowed the team to make data-based decisions
- Utilized RESTful APIs to retrieve and display data on over 10,000 companies featured on UP 365

Item Management Specialist (May 2018 - Aug 2019)

Robins Air Force Base

- Managed a \$20M portfolio of 60+ Special Operations assets using inventory tracking software
- Succeeded in updating database with documents from 1,000+ paper files
- Created Microsoft Excel spreadsheets to forecast repair needs for a portfolio of 10 mission-critical assets
- Consulted with Air Force leadership on ways to improve the Premiere College Internship Program (PCIP)—as a result, the second wave of PCIP Interns experienced more field rotations
- Mentored 3 Summer 2019 PCIP Interns

Interests: Football (former college football player), reading (The Intelligent Investor), Blockchain, Web 3.0
