

Jacob Woodruff

Senior Software Engineer

Dedicated and efficient Software Engineer with 5+ years' background in creating and executing innovative software solutions to enhance business productivity. Highly experienced in all aspects of the software development lifecycle and end-to-end project management, from concept and design through to development and delivery. Consistently recognized as a hands-on and competent leader, skilled at coordinating cross-functional teams in a fast-paced, deadline-driven environment to steer timely project completion within budgetary constraints.

WORK EXPERIENCE

Senior Flutter Developer GloriFi Financial

12/2021 - 12/2022

Dallas, Texas

Glorifi is a FinTech company start-up that built an application offering financial insights, banking, and credit cards.

Achievements/Tasks

- Supervised and lead a team of 8 onshore/offshore senior front-end engineers during the development of a robust FinTech application that worked seamlessly across iOS and Android
- Translated all UI and functionality to be performant on Web for all screen sizes. Got to production in 6 months to achieve 30,000 users in the USA within the first week
- Integrated Plaid, our own Python API's, and all other 3rd party vendors into the Flutter App. Used GetX State Management. Worked closely with the Design Team in Figma to ensure the highest quality user experience possible

Full-Stack Engineer Retail Ecommerce Ventures

05/2020 - 12/2021

Scottsdale, Arizona

REV is a large E-Commerce company that oversees all online operations of Dressbarn, Pier 1 Imports, Radioshack, Steinmart, and many other large retail stores.

Achievements/Tasks

- Played a pivotal role in the development of a VueJS/PHP full-stack Web Application to automate a large majority of processes including product management, logistics and shipping, and vendor relations.
- Managed all Shopify store fronts across the company including test oriented upgrades to the Liquid code that helped 5x revenue over 8 months.

Software Engineer/Digital Marketer Netscale Digital

05/2017 - 05/2020

Queen Creek, Arizona

Netscale Digital was my personal software company. I worked with many different businesses on their website, ecommerce, and application needs.

Achievements/Tasks

- Built modern business websites using Shopify and Wordpress for clients
- Implemented innovative paid/unpaid marketing strategies across all platforms including Facebook, YouTube, and Google.
- Built a patent-pending Flutter/Firebase Application for water-ski lakes across the United States. It includes full login/register functionality using Firebase Auth, chat functionality with Firestore Database, and notifications using Cloud Functions. - lakeflagsapp.com
