Summary

I have experiences with mobile app& web app development for 10+ years and also have experiences with leading the team(especially flutter engineers)
I have been following agile scrum 2 week sprint(some times 1 or 3 weeks), and have been managing CI/CD using fastlane/bitrise & github/gitlab, or Microsoft Azure
I am pretty confident to work/lead flutter project since flutter is my core skills with native mobile app development experiences
I do have experiences with building flutter packege/plugin using dart & kotlin/swift and also experiences with many state managements like Bloc, Provider, Mobx, RiverPod, Getx etc while I also like to use Singleton as well!

Here are some of my work result

Experience

⬭ Sr. Flutter Developer

BairesDev
Jan 2019 - Present (4 years 1 month)
I have been working as a Sr. Flutter developer who is responsible on leading the flutter dev guys
The project is pretty much common ecommerce app where customers can post their products, and delivers/carrieers can bring the orders/packages, and people finally can order/receive the products
We have 4 mobile apps for sellers, customers, delivers, admin
There are QR code scanning feature for each products as well as orders, and there were tracking order feature and mapbox navigation feature for delivers, and much more...

Used techniques:

Flutter, Dart, Java, Swift, ReactJS, Firebase, AWS, GraphQL, MongoDB and much more

Flutter Developer
BairesDev
Apr 2017 - Dec 2018 (1 year 9 months)
Used Specs
Flutter, Dart, Bloc, Getx, Redux, Java, Swift, NodeJS, ReactJS, MongoDB, MarinaDB, AWS and much more

Sr. Mobile App Developer
Golden State Warriors
Jan 2014 - Mar 2017 (3 years 3 months)
I worked as a Sr. Mobile App Developer.
Overall years, I have been building 2 mobile apps using Java, Swift, Kotlin

The project is for sports professionals to measure their status(feeling, health, etc) and it can be reported life time to their manager and doctors so that they can plan in perfect way
We also have some medical devices from SilverLab, and apple watch and google watch apps as well!

Used Specs
Java, Swift, Kotlin, .Net, Django, Python, AWS, Firebase, much more

Mobile Application Developer
Golden State Warriors
Jan 2013 - Dec 2013 (1 year)

Software Engineer Intern
Golden State Warriors
Jun 2012 - Dec 2012 (7 months)

Education

Tsinghua University
Bachelor's degree, Computer Software Engineering
2008 - 2012

Skills

Flutter • Dart • Java • Swift (Programming Language) • Kotlin • React Native • React.js • Amazon Web Services (AWS) • Firebase • GraphQL
